

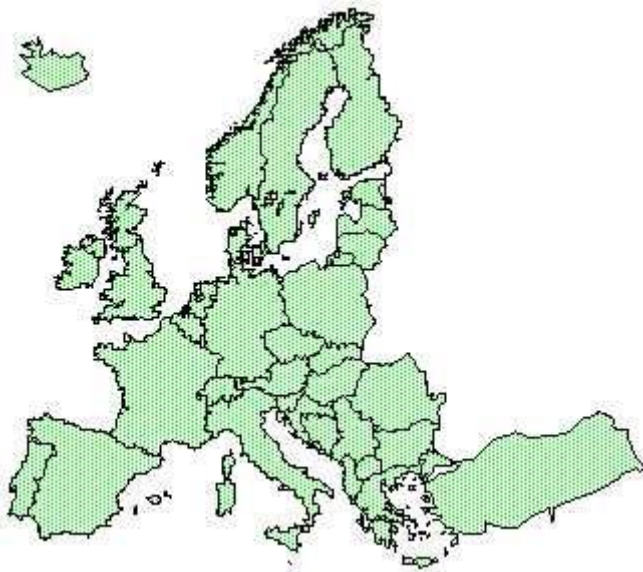

Mapping Europe's Historic Boundaries and Borders: An Exploratory Workshop

Our concern is with mapping the **changing** boundaries of administrative units, from parishes and communes up to nations and empires, as a framework for studying the European past.

The workshop was held at the European University Institute, Florence, Italy, June 2nd to 4th, 2000. Funded by the European Science Foundation under their Exploratory Workshops in the Humanities Programme, the meeting was for a limited number of participants, but reported back to a meeting at the International Congress of Historical Sciences in Oslo on Thursday 10 August (14:00-17:00).

Our **Country Surveys** and **Project Reports** now cover research in most European countries:

This document:

- **Introduction**
- **Workshop Goals**
- **Workshop Programme**
- **Associated Projects**
- **Participants**

Separate documents:

- **Background Papers**
- **Country Surveys**
- **Project Reports**

The co-ordination group for the meeting consisted of:

- Humphrey Southall (University of Portsmouth, UK; Scientific Co-ordinator)
- Michael Goerke (European University Institute, Florence, Italy)
- Gunnar Thorvaldsen (Registreringsentral for historiske data, Tromsø, Norway)
